Education

2020 – 2022 **Toulouse School of Economics** – *Toulouse, France*
M.Sc. in Econometrics and Statistics
2015 – 2020 **Ozyegin University** – *Istanbul, Turkey*
B.A. in Economics
2011 – 2015 **Kabataş Erkek Lisesi** – *Istanbul, Turkey*
High School Diploma

Work Experience

Mar 2025 – Feb 2026 **OECD/SWAC** – Paris, France
Position: *Data Scientist*
- Developing and maintaining data monitoring and reporting systems for the Sahel and West Africa Club. Building automated data pipelines and managing the RPCA website. Responsible for data analysis, visualization, and quality assurance in coordination with regional institutions.

Apr 2024 – Feb 2025 **Position:** *Consultant*

Jan 2024 – Jun 2025 **Sciences Po Paris** – Paris, France
Position: *Adjunct Instructor*
- Instructor for the courses: Introductory Economics, Applied Microeconomics, Python and Machine Learning.

Sep 2023 – Jun 2024 **Position:** *Predoctoral Research Assistant*
- Assisting Prof. Emeric Henry and Prof. Roberto Galbiati with their research project in the field of behavioral economics. Responsible for designing and conducting an experiment, literature review, methodology and analysis.

Oct 2022 – Aug 2023 **Circana** – Paris, France
Position: *Junior Data Scientist*
- Market research for clients in the beauty, sports, toys and food sectors in Europe. Modeling with extensive POS and consumer databases. Coming up with new solutions and applying machine learning methods. Responsible for the transition into new programming languages.

Oct 2021 – Sep 2022 **Position:** *Analytics Associate, Apprentice*

Jun 2021 – Sep 2021 **Ozyegin University Center for Financial Engineering** – Istanbul, Turkey
Position: *Research Assistant, Intern*
- Conducting academic research using sophisticated statistical tools and applying frontier academic findings for commercial projects.

Feb 2020 – Jun 2020 **Ozyegin University** – Istanbul, Turkey
Position: *Teaching Assistant*
- Teaching assistant for the Intermediate Macroeconomics and Econometrics I courses.

Oct 2019 – Jun 2020 **Position:** *Research Assistant*
- Econometric work for two separate projects from the Department of Political Sciences and the Department of Economics.

Nov 2018 – Oct 2019 **Enterprise Ireland** – Istanbul, Turkey
Position: *Trade Marketing Executive, Part-time*
- Represented 100-150 Enterprise Ireland client companies looking to start, grow, innovate and win export sales in Turkey.

Projects & Research

- Sep 2023 – Present **Sciences Po** – Paris, France
Research Project: *Shaping Social Norms: How Experience Affects Moral Judgments (WIP)*
- This project uses a combination of theory, laboratory experiments and empirical methods relying on an interdisciplinary team. It explores how social and self-image are tied together by a principle of coherence and how their interactions drive behavioral responses to the environment and can explain rapid shifts of social norms. Building on these results, it studies the optimal design of one of the main interventions used to promote prosocial behavior: moral reminders. Project.
- Apr 2022 – Sep 2022 **Toulouse School of Economics** – Paris, France
Thesis: *Augmented product assortment using genetically optimized random forests*
- This paper studies the hierarchy of characteristics of directly competing subsets of products as part of the product assortment problem. The attribute partitioning structure of a market is revealed from fragrance sales information from a point of sale data set using a two step model which improves random forests in first, as part of an optimization function and second, feature selection. This feature selection is later used for gaining insights on new product introduction. (16/20 - *Très Bien*, highest honors). Available upon request.
- Jun 2021 – Sep 2021 **Ozu Center for Financial Engineering** – Istanbul, Turkey
Research Paper: *Instrumented principal component analysis on emerging markets (WIP)*
- This project is the reapplication of the IPCA method developed by Kelly (2020), on emerging market assets. IPCA provides a parsimonious means of incorporating vast conditioning information into factor model estimates, which performs significantly better than conventional PCA methods while holding consistency and asymptotic normality.
- Jan 2021 – Mar 2021 **Toulouse School of Economics** – Toulouse, France
Research Project: *Monothetic divisive clustering: Real estate in the suburbs of Boston*
- This project studies the statistical background of the DIVCLUS-T package and compares it with more traditional clustering methods using real estate data to categorize certain districts within Boston.
- Sep 2020 – Apr 2021 **Toulouse School of Economics** – Toulouse, France
Research Paper: *Change in relative income and subjective well-being: evidence from Georgia*
- This paper uses the variation of the change in relative income in Georgia, to show that self-expressed levels of well-being are positively affected by an increase of income, relatively to a household's geographical location in certain conditions. Paper.
- Feb 2020 – Jun 2020 **Ozyegin University** – Istanbul, Turkey
Research Paper: *Closet indexing in mutual and pension funds in Turkey (WIP)*
- Extensive data collection, structuring and analysis of Turkish mutual and pension funds. An empirical study of underperforming funds that benefit from closet indexing. The project is conducted by Prof. Atakan Yalcin and Asst. Prof. Mehmet Ozsoy (Ozyegin University).
- Oct 2019 – Feb 2020 **University of Texas at Austin** – Austin, TX
Project: *The Global Leadership Project*
- Cleaned and analyzed a database of nearly 90,000 politicians over the world in a study called The Global Leadership Project. The project is conducted by Prof. John Gerring (University of Texas at Austin) and Asst. Prof. Erzen Oncel (Ozyegin University). Project.
- Oct 2019 – Jan 2020 **Research Paper:** *Search, memory and choice error: an experiment*
- This paper studies the effect of the order in which information is acquired in multiple attribute search processes. A redesigned experiment is conducted to derive results on how people deviate from the path of an unlimited memory searcher in order to reduce their working memory load. Paper.
- Apr 2019 – Apr 2019 **Marsh** – Istanbul, Turkey
Certificate: *Data Analytics Case Competition, 1st place*
- Sep 2017 – Dec 2017 **Free University of Bolzano** – Bolzano, Italy
Research Presentation: *Politics after financial crises*
Research Presentation: *How industries respond to local shifts in labor supply*
Research Presentation: *Immigration and voting for the far right*
Research Presentation: *Inequality among world citizens*
- Jul 2017 – Jul 2017 **YEP-D Workshop** – Izmir, Turkey
Certificate: *Young Economic Policy Designer*

Skills & Knowledge

Technical skills

Python (Scikit-learn, Tensorflow, Keras, NLP)
R
Stata
SQL
JavaScript (React, Node)
QGIS
Matlab (Psychtoolbox)
L^AT_EX

Test scores

TOEFL IBT: 112
GRE Verbal: 154 – 62nd pct.
GRE Quantitative: 167 – 87th pct.
GRE Writing: 3 – 13th pct.
University Placement: 99th pct.
B.A. GPA: 3.35
M.Sc. GPA: 3.33 (12.3/20)

Extracurricular Activities

Member, Kabataş Erkek Drama, Mountaineering Clubs (2012 - 2015)
Founding Member, Ozyegin University Economics Club (2018 – Present)
Galatasaray SK Swimming, Team B (2011 - 2014)
Özyeğin University Swimming, Team B (2015 - 2016)
